

neural

Support caregivers beyond your programs. Without adding more to your team.

NeuralCare gives families one simple place to manage dementia care so they can stay organized, supported, and confident every day.

Available 24/7.

Built for real life. Designed to make caregiving easier.

**24/7
support for
caregivers**

Caregiving doesn't stop between visits

Families are managing medications, appointments, routines, and unexpected changes every day. NeuralCare helps bring structure, clarity, and support to all of it.

Caregivers report
high emotional stress

Stronger follow-through. Less overwhelm. Better outcomes.

- ✓ Stay organized between visits
- ✓ Follow through on care plans
- ✓ Reduce missed steps and confusion
- ✓ Help families feel more confident and prepared

THREE COORDINATED LAYERS OF SUPPORT

Personal AI Assistant

Guides medications, routines, and next steps with simple, real-time support.

AI Monitoring

Identifies changes in behavior or routines early.

24/7 Companion

Provides real-time guidance and reassurance anytime.

NeuralCare complements your programs. It does not replace clinical judgment or care teams.

How NeuralCare supports caregivers and the organizations who serve them.

Built to strengthen what you already provide, not replace it.

Human Layer

Caregivers, families, and care teams provide trust and connection.

CAREGIVER
